

When Cleaning Bunny Houses...

Keep cleaning if... STOP cleaning if...

- Bunny resumes eating
- Grooming
- Relaxing
- Sitting in litter box
- Hops away from you

- Ears fold back
- Darting
- Lunging
- Eating and suddenly stops
- Freezing
- Facing back of cage, as if trying to find a way out
- Swiveling ears
- Swiveling head
- Jumps out of litter box in your direction
